"OUR AMERICAN HISTORY SERIES"

Here are the first five two reel subjects in a series of eight on American History. Three more—OUR MISSOURI COMPROMISE, OUR ANNEXATION OF TEXAS and OUR ORDINANCE OF 1787—are now in work or in preparation. At a time when the world is aflame and Democracy is at stake, they are the most timely and significant of any short subjects on the market. Authentic—factual—and

documented from authoritative sources they dramatize the epochal events in the founding and developing of our own United States and the American Way of life. Immortal figures of the founders of our Democracy are portrayed by notable casts and stirring events are re-created on the screen in imperishable documents that will thrill every red-blooded American.

* (2 reels each. Rental price \$3.50 per subject per day.) Shipped anywhere in the Union

"OUR BILL OF RIGHTS"

A dramatic re-creation of the events leading to the adoption of the first ten amendments to the Constitution known as the Bill of Rights. James Madison fathered these guarantees promised to the people, and he, with George Washington, Benjamin Franklin, John Randolph and others play their historic roles, interpreted by a notable cast.

"OUR CONSTITUTION"

The Constitution of the United States is the foundation of American Democracy. The dramatic events immediately leading to the Constitutional Convention in Philadelphia in 1787, where this immortal document was forged, form one of the most inspiring pages in the progress of the human race. Washington, Franklin, Madison, Hamilton and others are brought to life and play their part in the making of this immortal document.

"OUR DECLARATION OF INDEPENDENCE"

Years of struggle and strife, of discontent and hardship for the American colonies preceded The Declaration of Independence, proclaimed on July 4th, 1776. The flaming events leading to the Declaration are vividly portrayed in OUR DECLARATION OF INDEPENDENCE with such immortal characters as Washington, Jefferson, Adams, Patrick Henry, Richard Henry Lee and others brought to life in the dramatic roles they played in this epochal event in the birth of our country.

"OUR MONROE DOCTRINE"

The cornerstone of American foreign policy is the Monroe Doctrine, proclaimed by James Monroe, fifth president in his message to Congress, 1823. The significance of this film dramatization of the conditions that led to the Monroe Doctrine, are emphasized by the political and moral chaos of Europe in Monroe's time compared with the present world upheaval.

"OUR LOUISIANA PURCHASE"

The dramatic story of what is considered one of the greatest historical achievements of our great President, Thomas Jefferson. All the events leading up to this episode are dramatized by historical characters such as Thomas Jefferson, Napoleon Bonaparte, Talleyrand and James Madison. We view the intrigue between Bonaparte and Talleyrand, the political and diplomatic battles between the French, Spanish and English for control of the greater part of the American Colony and the final triumph of President Jefferson in acquiring for the United States that territory comprising what is now the state of Louisiana, the vast region from the Mississippi River to the Rocky Mountains and the Gulf of Mexico to British North America. 885,000 square miles for \$15,000,000.00.

Will quote special attractive rate to school systems interested in weekly, monthly or seasonal rates.
